#### **DETAILED ACTION**

1. The Abstract filed on 4/2/2003 have been considered and enter and Applicant's arguments have been acknowledged. After careful reconsideration of this application, the claim rejection under 35 U.S.C. 103(a) and allowable subject matter of the previous office action are withdrawn in favor of the following action.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-7, drawn to method for reducing complications after implantation of an intravascular stent, classified in class 623, subclass 1.42.
  - II. Claims 8-31, drawn to method for producing or coating an intravascular stent, classified in class 623; subclass 901.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have modes of operation, different functions, and different effects. Invention I is a method for treating a blood vessel having complications after implantation of an intravascular stent and Invention II is a process for making or coating an intravascular stent.

Art Unit: 3731

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Robert R. Mallinckrodt on 7/24/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Jackie) Tan-Uyen T. Ho whose telephone number is (703) 306-3421.
